Re: Extension of OMB 1845- 0010

The purpose of this submission is to extend without changing the existing approval for the Equity in Athletics Disclosure Act (EADA) regulations (34 CFR 668.41, 668.48). The EADA requires an institution that participates in Title IV HEA federal student financial assistance program and has an intercollegiate athletic program to annually prepare a report on athletic participation, staffing, revenue and expenditures by gender and by men's and women's teams. The report is made available to students, potential students and the public, upon request. An institution also reports the information to the Department of Education annually and the Department makes the information available publicly on its website.

The adjustments on the OMB 83-I for 1845-0010 are a reflection of the additional number of institutions that now have intercollegiate athletic programs.

Thank you.
